Frontend Developer (React.js)

React.js Developer with hands-on experience building and deploying production-grade SPAs using React 18, Redux Toolkit, Context API, and Tailwind CSS. Proven ability to deliver real-world features including state management, PWA support, authentication flows, and performance optimization — with live deployments on Vercel

PROJECTS

Wristly — Watch E-Commerce SPA

React 18 · Redux Toolkit · React Router v6 · Tailwind CSS · PWA · Vite

Live :- <https://wristly-react-project.vercel.app/>

Github :- https://github.com/mayurpanchal-12/Wristly_React-Project.git

- Built a full e-commerce SPA with product filtering, cart, wishlist, authentication, checkout flow, PWA support (installable, offline-ready), and localStorage-based auth — using Redux Toolkit (createSlice, createAsyncThunk)
- Implemented code splitting (React.lazy + Suspense), memoization (memo, useCallback), skeleton loading UI, dark mode with no flash for performance optimization
- Handled errors via Error Boundary + 404 wildcard route; validated props with PropTypes across all components

Personal Portfolio — Developer Showcase SPA

React 18 · React Router v6 · TailwindCSS v4 · EmailJS · Vite

Live :- <https://personal-portfolio-react-js-psi.vercel.app/>

Github :- https://github.com/mayurpanchal-12/Personal_portfolio_React.js.git

- Built a fully responsive SPA with dark code-editor aesthetic, sticky navbar, dynamic project detail pages powered by a single projectsData.js — auto-reflects app flow, tech stack, and highlights across all page
- Integrated EmailJS contact form (no backend) with inline success/error feedback; resume downloadable via reloadDocument
- Added React.lazy + Suspense, per-route Error Boundary, PageLoader spinner, and 404 wildcard route
